KEY PROJECTS

ApplyForm — Multi-Tenant-CRM

➔ applyform.io

A multi-tenant Student Recruitment CRM platform for education agencies, consultants, and institutions. Served as the primary full-stack developer, delivering the full application pipeline, lead management, automated workflows, agent and counsellor management modules, and real-time analytics dashboards. Built with React.js, Spring Boot and AWS.

Counselify.ai — AI-Powered CV Analyzer

➔ counselify.ai · app.counselify.ai/analyze-cv

An AI product that analyses student CVs and professional profiles using natural language processing to generate intelligent career and academic positioning insights and recommends the best study-abroad pathways across the world. Built with React.js and Spring Boot, integrated with AI/NLP back-end services.

Student Portal — The Students Visa

➤ portal.thestudentsvisa.com

Self-service portal enabling students to track visa application progress, upload and manage documents, schedule consultations, and monitor case status in real time. Built on a multi-tenant Spring Boot back end with AWS S3 document storage and MySQL/MongoDB persistence.

Counsellor Portal — The Students Visa

➤ counsellor.thestudentsvisa.com

Internal operations portal for licensed counsellors to manage student pipelines, track applications, schedule appointments, generate leads and view revenue analytics. Built with React.js. Integrates with the student portal and a multi-tenant Spring Boot back end with AWS S3 document storage and MySQL/MongoDB persistence.

iTrans — Web Studio Landing Page

➤ itrans.vercel.app · github.com/TechDinith/i-trans

Marketing site for a web development studio, showcasing landing-page, full-stack and Firebase-powered service offerings for startups and small businesses. Built with Next.js, TypeScript and Tailwind CSS.

IdeaCloud

➤ ideacloud-itrans.vercel.app · github.com/TechDinith/ideacloud

A React-based web app built on a modern Vite and shadcn/ui component stack with Firebase for data and auth. Built with React.js, Vite, Tailwind CSS, shadcn/ui and Firebase.
