SKILLS

CORE

React.js · Redux / Redux-Thunk · Tailwind CSS · Axios · Spring Boot (REST APIs) · MySQL · MongoDB · Git / GitHub / Bitbucket · Jira

INTERMEDIATE

AWS Lambda · AWS SQS · AWS EventBridge · AWS S3

AGENTIC AI

Claude Code · OpenCode

AI INTEGRATIONS

OpenAI · DeepSeek · Anthropic APIs

EXPOSURE

Next.js · TypeScript · Node.js / Express · PostgreSQL · Docker · Kubernetes · Python · Firebase · MUI · Ant Design · AWS Amplify · App Runner · CodePipeline · Swagger UI

TESTING

Manual · Exploratory · AI-assisted

PROGRAMMING

Java · JavaScript / TypeScript · Python

TOOLS

VS Code · IntelliJ IDEA · Slack

Dinith Rukantha

Full Stack Engineer · Multi-Tenant Systems · Cloud & AI

PROFILE SUMMARY

Full-stack engineer with 4+ years of experience building multi-tenant web platforms for international markets. Strong in **React.js and Spring Boot**, with working AWS experience and hands-on use of AI coding agents and LLM API integrations.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

The Students Visa · Colombo, LK Jul 2025 – Oct 2026

- Architected the multi-tenant platform that powers ApplyForm.io and continue to maintain it.
- Engineered the Counselify.ai CV analysis platform, an AI product that analyses CVs and generates study-abroad pathway recommendations.
- Design and build scalable features with React.js, Spring Boot and Redux.
- Support production services on Kubernetes and AWS, including log monitoring, restarts and pod scaling.

Software Engineer

The Students Visa · Colombo, LK Jul 2024 – Jul 2025

- Built and maintained full-stack features across all portals on the platform using React.js, Spring Boot, Tailwind CSS, Redux, MySQL and MongoDB.
- Built an event-driven notification system on AWS: EventBridge schedules messages to SQS, immediate event triggers push to the same queues, and consumers deliver SMS, email, Pusher, Slack and WhatsApp notifications.
- Designed a role-based access matrix where roles grant access to specific endpoints and UI features, and admins can extend a role's access.
- Integrated OpenAI APIs (via AWS Lambda) into the platform's AI Counselling Assistant, automating early-stage student enquiries.

Associate Software Engineer

The Students Visa · Colombo, LK Sep 2023 – Jul 2024

- Owned front-end modules spanning lead tracking, application management, document handling and operational dashboards.
- Delivered features with React.js, Tailwind CSS and Axios across multiple platform modules.

Software Engineer Intern

The Students Visa · Colombo, LK Apr 2023 – Sep 2023

- Delivered React.js UI components, REST API integrations and Swagger-documented endpoints.

Software Engineer Intern

CabbageApps (Pvt) Ltd · Colombo, LK Apr 2021 – Nov 2021

- Built React.js components and Nest.js REST APIs across multiple client projects in an Agile team.
- Managed state with Redux-Saga, built UIs with Ant Design and wrote unit/integration tests with Jest.

EDUCATION

Bachelor of Information and Communication Technology

Specialization in Software Technologies

South Eastern University of Sri Lanka

2016 – 2021

Second Class (Upper Division)

Diploma in Software Engineering

ESOFT Metro Campus · 2016

LANGUAGES

Sinhala — Native

English — Professional

INTERESTS

Singing & Music · Coding

Sports · Reading

KEY PROJECTS

ApplyForm — Multi-Tenant CRM

applyform.io

A multi-tenant Student Recruitment CRM platform for education agencies, consultants and institutions. Served as the primary full-stack developer, delivering the full application pipeline, lead management, automated workflows, agent and counsellor management modules, and real-time analytics dashboards. Built with React.js, Spring Boot and AWS.

Counselify.ai — AI-Powered CV Analyzer

counselify.ai · app.counselify.ai/analyze-cv

An AI product that analyses student CVs and professional profiles using natural language processing to generate career and academic positioning insights, and recommends the best study-abroad pathways. Built with React.js and Spring Boot, integrated with AI/NLP back-end services.

Student Portal — The Students Visa

portal.thestudentsvisa.com

Self-service portal enabling students to track visa application progress, upload and manage documents, schedule consultations and monitor case status in real time. Built with a React.js front end on a multi-tenant Spring Boot back end with AWS S3 document storage and MySQL/MongoDB persistence.

Counsellor Portal — The Students Visa

counsellor.thestudentsvisa.com

Internal operations portal for licensed counsellors to manage student pipelines, track applications, schedule appointments, generate leads and view revenue analytics. Built with React.js, integrated with the student portal and the multi-tenant Spring Boot back end.

PERSONAL PROJECTS

iTrans — landing page for a web studio / startup software company. Built with Next.js, TypeScript and Tailwind CSS.

itrans.vercel.app · github.com/TechDinith/i-trans

IdeaCloud — a platform for sharing innovative ideas, where interested parties can discover their next project and creative minds get discovered. Built with React.js, Vite, Tailwind CSS and shadcn/ui, with Firebase for data and auth.

ideacloud-itrans.vercel.app · github.com/TechDinith/ideacloud
